Professional Summary

MCA student at National Institute of Technology Agartala with a strong foundation in Java, Python, JavaScript, SQL, Data Structures and Algorithms, and web application development. Experienced in building full-stack applications using Django, React.js, HTML/CSS, and relational databases. Familiar with MERN stack development using MongoDB, Express.js, React.js, and Node.js. Solved 400+ LeetCode problems and actively developing problem-solving and software engineering skills for Software Development Engineer roles.

Education

National Institute of Technology Agartala <i>Master of Computer Applications</i> CGPA: 9.37	Agartala, Tripura Dec 2025 – Present
Dev Bhoomi Uttarakhand University <i>Bachelor of Computer Applications</i> CGPA: 9.36	Dehradun, Uttarakhand Jun 2021 – Jun 2024
Rajeev Gandhi Navodaya Vidyalaya <i>Senior Secondary (XII)</i> Percentage: 74.2%	Almora, Uttarakhand Apr 2019 – Jun 2020

Experience

TCR Innovation <i>Web Development Intern</i>	Remote Jun 2023 – Jul 2023
--	-------------------------------

- Worked on web development tasks and strengthened practical skills in frontend and backend web technologies.

Technical Projects

Hospital Management System	<i>Django, SQLite, HTML, JavaScript</i>
- Developed a role-based hospital management application with dedicated portals for doctors, administrators, and patients. - Implemented patient record management, appointment scheduling, and multi-role authentication. - Applied backend security practices and database-query optimization to improve application reliability and maintainability.	

E-commerce Website	<i>Django, SQLite, HTML, JavaScript, Vercel</i>
- Built an e-commerce web application supporting product browsing, user registration, and shopping-cart management. - Designed responsive interfaces and intuitive navigation to improve the overall user experience. - Deployed the application using Vercel.	

Library Management System	<i>Django, JavaScript, HTML/CSS, PythonAnywhere</i>
- Developed a library management system with separate admin and user portals. - Implemented OTP-based email verification to improve registration security.	

Technical Skills

Languages	Java, JavaScript, Python, SQL, HTML, CSS
Frameworks & Libraries	React.js, Node.js, Express.js, Django
Databases	MongoDB, MySQL, SQLite
Web Technologies	REST APIs, Full-Stack Web Development, Responsive Web Design, Authentication, Role-Based Access Control
Developer Tools	Git, GitHub, VS Code, IntelliJ IDEA, Vercel, PythonAnywhere
Core Areas	Data Structures and Algorithms, Database Management, Web Development, Object-Oriented Programming, Problem Solving

Achievements

- LeetCode:** Solved 400+ problems with a rating of 1550+.
- CodeChef:** Specialist with a rating of 1304.
- NASSCOM:** Gold Python certification/achievement, 2024.
